

# INSTRUCTIONS FOR AUTHORS

*Current Allergy & Clinical Immunology* publishes articles concerned with the understanding and practice of allergic diseases or clinical immunology.

Material submitted for publication to *Current Allergy & Clinical Immunology* is accepted on condition that it has not been published elsewhere. The management reserves the copyright of the material published. All named authors must give consent to publication. *Current Allergy & Clinical Immunology* does not hold itself responsible for statements made by contributors.

Original research, review articles, case reports, brief research reports or photographs may be submitted. Letters to the editor are welcome and if suitable will be published in a correspondence section. **All articles will be subject to peer review.** Electronic submission is preferable. However, if authors are unable to submit electronically then the article may be posted to the correspondence address listed at the end of these instructions.

## Manuscript preparation

- Articles may be submitted electronically online at [www.allergysa.org/articles](http://www.allergysa.org/articles) or follow the links from the homepage [www.allergysa.org](http://www.allergysa.org). To register, you need to enter your name, personal details, HPCSA number and a password. Once you have registered, you will receive an email confirming your registration. You can either submit your article immediately or log on at a later date. Authors should state their full name, qualifications, institutional affiliation and provide a corresponding address and email on the title page. Articles should be a maximum of 3500 words with no more than 3 figures and 3 tables. Short reports should be a maximum of 1000 words with a maximum of 2 tables or illustrations.
- Each article should be accompanied by a summary of not more than 200 words (50 words for short reports). A structured abstract is required for original research papers.
- Authors are requested to declare conflict of interest and source of funding relating to the article. Authors should disclose any relationship within the last 2 years with pharmaceutical companies in the following categories if pertinent to the article: research grants, educational support (sponsorship at conference), advisory boards, speaker, consultant or shares in companies. This must be stated at the end of the manuscript before the references. Details of ethical approval obtained must be included in all original research articles.
- All abbreviations should be spelt out when first used in the text and thereafter used consistently.
- Scientific measurements should be expressed in SI units.
- Tables should be labelled with Roman numerals, thus: I, II, III, etc. and illustrations with Arabic numerals, thus: 1, 2, 3, etc. Tables and figures should be submitted as part of the manuscript file. Please do not submit photographs in Powerpoint and MS Word format – a high-resolution jpg is required. Photographs should be submitted separately from the manuscript file and clearly labelled.
- Where identification of a patient is possible from a photograph the author must submit a consent to publication signed by the patient, or by the parent or guardian in the case of a minor.
- If any tables or illustrations submitted have been published elsewhere, written consent to republication should be obtained by the author from the copyright holder and the author(s).

## References

- References should be inserted in the text as superior numbers, and should be listed at the end of the article in numerical order.
- References should be set out in the Vancouver style, and only approved abbreviations of journal titles should be used; consult the January issue of *Index Medicus* (No. 1 Part 1) for these details. Names and initials of all authors should be given unless there are more than six, in which case the first three names should be given followed by 'et al.' First and last page numbers should be given.  
Example:  
1. Khakoo G, Lack G. Recommendations for using MMR vaccine in children allergic to eggs. *BMJ* 2000; 320: 929-932.
- References for books should include author, title, town, publisher and date.  
Example:  
1. Abbas AK, Lichtman AH. *Basic Immunology*. Philadelphia: WB Saunders, 2001.
- 'Unpublished observations' and 'personal communications' may be cited in the text, but not in the reference list. Articles accepted but not yet published can be included as references followed by '(in press)'.

## All correspondence should be addressed to:

The Editors, Current Allergy & Clinical Immunology, Allergy Society of South Africa, PO Box 88, Observatory 7935, South Africa.
